

On behalf of Alway, BagForm and Aqualine by Alway I am pleased to personally welcome you to the PPMA Show 2023.

We are in an ever-changing, fast-paced industry, and we are keen to show you why we believe service, quality, and innovation are key to success in 2023 and beyond.

At Alway, we have always prided ourselves on our innovation and continuous reinvestment into our products, solutions and services.

With innovation in mind, we are proud to be presenting to the HSP9000, our revolutionary cheese piercing solution for the blue cheese industry, which is already in use at one of the largest cheese producers in the United Kingdom.

Alongside the HSP9000, you will find the latest Vertical Fill Form and Seal solutions from BagForm and a comprehensive display of stainless-steel solutions from our sister company, Aqualine by Alway.

Our friendly team will be on hand over the course of the show to help you with any queries or questions you may have, and we look forward to you visiting us on our stand.

Enjoy the show and your time at the NEC.

Sincerely,

Jason Larke
Managing Director
